## P5手柄充电座

产品说明书(PG-P5012)

### 电性参数:

工作电压: DC 4.8-5.2V

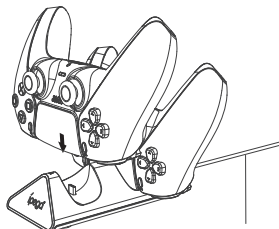

输入电流: < 2A

单组充电电流: <600 mA(单个手柄)

充电时间: 5小时

### 产品使用说明:

1. 将产品接入DC5V 2A电源适配器或游戏主机USB接口, 产品电源指示灯白灯亮起;
2. 将P5手柄对准充电插头插入充电座后, 等待3秒左右, 手柄上的橙色充电状态指示灯亮起, 此时手柄为充电状态; 当手柄充满后橙色指示灯熄灭, 此时手柄为饱和状态;

连接DC5V 2A电源

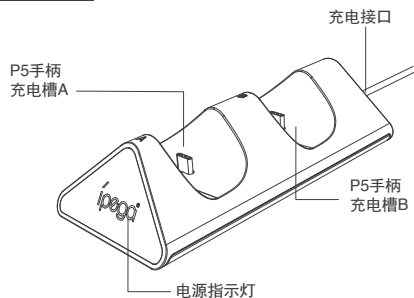

### 注意事项:

1. 使用本产品时需配套使用标准带有保护功能的电源, 以防发生意外损坏产品及手柄;
2. 请不要在高温环境下充电使用!
3. 避免暴晒、雨淋、受潮、受热!
4. 不宜放置在通风不好地方充电!

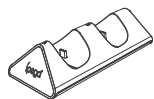

### 产品特点:

1. 本产品适用于P5游戏手柄进行充电使用;
2. 支持双手柄充电功能, 更好的节约空间及电源设备;

## Charge Station For P5 Controller

Product Manual(PG-P5012)

### Product parameter:

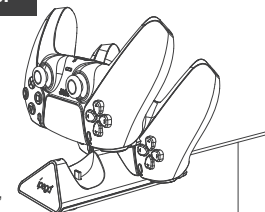

Working voltage: DC4.8V - 5.2V;

input current : < 2A

Charging current : < 600 mA(single controller); Charging time: 5H

### Product instructions:

1. Connect the product to the DC5V 2A power adapter or game console with USB port , the power indicator will lights up.
2. Insert the P5 controller into the interface of the charging stand, wait for about 3 seconds, the orange charging indicator of the P5 controller will lights up, now the controller under charging state; when controller fully charged,the indicator on controller will turn off.

Connect to DC5V < 2A power

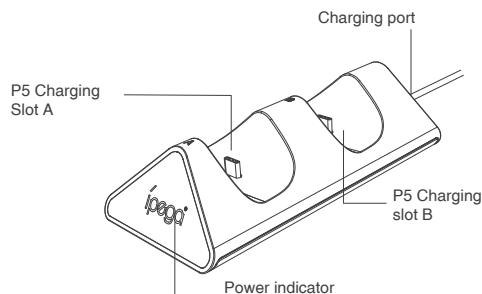

### Notes:

1. When using this product, need a standard power adapter with protection function to prevent accidental damage to the product and controller;
2. Please do not charge in high temperature environment!
3. Avoid exposure to the sun, rain, damp and heat!
4. It is not suitable to place it in a place with poor ventilation for charging!

### Features:

1. The charging station used for P5 controller .
2. Support two controllers charging at same time , saving space and power .

### Product appearance illustration:

### Included:

Charge Station X1

User Manual x1

Type-C USB cable
